Price: \$1.50

Reports Published by the  
Manufacturing and Primary Industries Division  
dealing with

ELECTRIC POWER

Catalogue number	Title	Price
Annual		
57-201	Electric and Gas Meter Registrations. Approx. 150 pp.  Meter registrations by province, county or census division, company and place served, by type of service .....	\$1.50
57-202	Electric Power Statistics. Approx. 48 pp.  Summary and detailed analyses of generation and use of electric power in Canada, power plant equipment, customers, employees, salaries and wages and financial statistics .....	\$1.00
57-203	Electricity Bills for Domestic, Commercial and Small Power Service. Approx. 15 pp.  Includes an annual index of electricity bills for domestic service and bills for light and power in cities and represen- tative municipalities .....	.50
57-204	Electric Power Survey of Capability and Load. Approx. 45 pp.  Current and projected data of capability and load of major producers of electric energy in Canada .....	.75
Monthly		
57-001	Electric Power Statistics. Approx. 4 pp.  Production by utilities and industrial establishments, imports and exports, power made available for use in Canada, amount used in electric boilers, by provinces. Per copy 10c; per year .....	\$1.00
Occasional		
57-502	Inventory of Prime Mover and Generating Equipment. Approx. 96 pp.  A list of the large generating plants in Canada by owner- ship, showing the location, year of installation, name-plate rating and other details of each large unit, as at December 31, 1961 .....	\$1.50

## TABLE OF CONTENTS

Page

Introduction .....	5
Electricity and Gas Inspection Districts .....	6
Table	
1. Electric and Gas Meter Registrations for the Years Ended December 31, 1941 to 1964 .....	7
2. Electric Meter Registrations by Province and Type of Service .....	7
3. Electric Meter Registrations by County or Census Division and Type of Service .....	8
4. Electric Meter Registrations by District and Type of Service .....	13
5. Electric Meter Registrations by Province, Company and Type of Service .....	14
6. Electric Meter Registrations by County or Census Division, Company and Place and Type of Service .....	25
7. Natural Gas Meter Registrations by District and Company .....	115
8. Manufactured Gas Meter Registrations by District and Company .....	135
9. Bottled Gas Meter Registrations by District and Company .....	136

## ELECTRIC AND GAS METER REGISTRATIONS

1964

The terms "Electric Meter Registrations" and "Gas Meter Registrations" are used throughout this report in reference to the number of meters in service as reported by companies engaged in the sale of electricity or gas in applications for certificate of registration. Each company is required to obtain a certificate of registration from the Department of Trade and Commerce, Standards Branch, not later than the 31st of March each year, for all meters in service at the end of the previous year.

Prior to 1956 the Electric and Gas Meter Registrations report was published by the Standards Division of the Department of Trade and Commerce in the "Report of the Standards Division", which covered the fiscal year ending on March 31. Since 1957 the report has been for the calendar year. A table showing electric meter registrations by province and company was first compiled for the 1958 report.

In 1964, a new system of regional reporting has been inaugurated. Under the new system, data are collected and compiled on the basis of "Incorporated Villages, Towns and Cities" and "Other Locations" with 50 or more meters. Previous publications listed meters in use on an "Urban" and "Rural" tabulation. The number of meters reported in service by companies engaged in the sale of electricity in Canada rose to 5,978,431 at December 31, 1964 from 5,811,443 one year earlier, an increase of 166,988 or 2.9 p.c. Meters employed in measuring electricity consumption at domestic rates numbered 4,867,184 as against 4,665,018 in 1963. Meters classed as commercial rose to 623,241 from 602,338 and those classed as power increased to 127,611 from 121,295, while farm meters registered a decrease of 62,397 to 360,395 in 1964 from 422,792 in 1963. Many utilities do not distinguish between domestic (located in other locations) and farm meters so the report is not too reliable unless the two categories are grouped.

A total of 1,587,018 natural, manufactured and other gas meters was reported in service at the end of 1964, an increase of 4.5 p.c. over the 1,518,285 recorded in 1963. At the year end only 15,953 meters remained in manufactured gas service, as compared with 17,384 in 1963, and 610,096 in 1950, the peak year. Meters in natural gas service rose 4.6 p.c. to 1,553,106 from 1,485,042. Manufactured and L.P.G. - air gases were being used in only three provinces - British Columbia, Ontario and Quebec at the year end.

For the second time in this series, table 6 is produced with the use of the "Standard Geographical Classification Manual". This manual is intended to serve as a general framework for publishing statistical information. It presents a classification system for provinces, counties or census divisions, municipalities and unorganized areas within each county or census division. We have in this publication made use of six of the nine digit code numbers from this manual.

The first two digits of the code number designate the province and areas outside, coded as follows:

- |                          |                          |
|--------------------------|--------------------------|
| 10. Newfoundland         | 46. Manitoba             |
| 11. Prince Edward Island | 47. Saskatchewan         |
| 12. Nova Scotia          | 48. Alberta              |
| 13. New Brunswick        | 59. British Columbia     |
| 24. Quebec               | 6- Yukon                 |
| 35. Ontario              | 6+ Northwest Territories |

The third and fourth digits indicate the counties or census divisions within each province and in the Yukon and Northwest Territories, the districts.

The fifth and sixth digits constitute the municipality or other local area code within counties or census divisions. The nature of these local areas differs slightly from province to province but are coded as uniformly as possible in such a system. Numbers from 01 to 79 and 91 to 98 designate urban municipalities, rural municipalities, improvement districts, census subdivisions and similar areas. Numbers from 80 to 89 designate Indian Reserves, and the code 90 designates an unorganized part or parts. The code 99 has been allocated to define balance of meters in each county or census division which have not been coded elsewhere.

# ELECTRICITY AND GAS INSPECTION DISTRICTS

For purposes of inspection under the Electricity Inspection Act and the Gas Inspection Act, the provinces of the Dominion have been divided into the following districts:

District	District composed of
Belleville, Ont. ....	Counties of Durham, Frontenac, Haliburton, Hastings, Leeds (Exclusive of the towns of Athens, Newboro and Westport), Lennox and Addington, Northumberland, part of Peterborough, Prince Edward, Victoria and part of Renfrew and York.
Calgary, Alta. ....	All that part of the Province of Alberta lying south of the northerly boundary of Township No. 37.
Charlottetown, P.E.I. ...	Province of Prince Edward Island.
Edmonton, Alta. ....	All that part of the province of Alberta lying north of the northerly boundary of Township No. 37, and the Northwest Territories.
Fort William, Ont. ....	Judicial Districts of Kenora, Rainy River and Thunder Bay.
Halifax, N.S. ....	Province of Nova Scotia.
Hamilton, Ont. ....	Counties of Brant, Haldimand, Halton, Lincoln, Norfolk, Waterloo, Welland, and Wentworth, and part of Dufferin, Elgin, Huron, Oxford, Perth and Wellington.
Kamloops, B.C. ....	(Now listed under Penticton.)
London, Ont. ....	Counties of Bruce, Elgin, Essex, Huron, Kent, Lambton, Middlesex, Oxford and Perth, and part of Grey, Norfolk, Waterloo and Wellington.
Montreal, P.Q. ....	Counties of Arthabaska, Bagot, Brome, Chambly, Compton, Drummond, Frontenac, Iberville, Jesus Island, Labelle, Laprairie, L'Assomption, Missisquoi, Montcalm, Montréa Island, Napierville, Nicolet, Richelieu, Richmond, Rouville, St-Hyacinthe, St-Jean, Shefford, Sherbrooke, Soulanges, Stanstead, Terrebonne, Verchères, Wolfe and Yamaska.
Ottawa, Ont. ....	That part of the Judicial District of Nipissing lying South and East of and including the Townships of Ballantyne, Boyd, Cameron, Pentland and Wilkes, the Counties of Carleton, Dundas, Glengarry, Grenville, Lanark, Prescott, Renfrew, Russell and Stormont, and the towns of Athens, Newboro and Westport in the County of Leeds, and part of Frontenac and Hastings in the Province of Ontario; and the Counties of Argenteuil, Gatineau, Hull, Labelle, L'Assomption, Montcalm, Papineau, Pontiac, Soulanges, Terrebonne, Vaudreuil and part of Deux Montagnes in the Province of Quebec.
Penticton, B.C. ....	That part of the mainland of the Province of British Columbia bounded by the 121st Meridian on the West and the Alberta Boundary on the East and the 52nd Parallel of Latitude on the North and all Towns on the mainland of British Columbia served by the Southern Interior Meter Section of the British Columbia Power Commission and the Inland Natural Gas Company.
Quebec, P.Q. ....	Counties of Beauce, Bellechasse, Bonaventure, Charlevoix-Est, Charlevoix-Ouest, Chicoutimi, Gaspé-Est, Gaspé-Ouest, Iles-de-la-Madeleine, Kamouraska, Lac-St-Jean Est, Lac-St-Jean Ouest, Lévis, L'Islet, Lotbinière, Matane, Matapédia, Mégantic, Montmagny, Montmorency 1, Montmorency 2, Portneuf, Quebec, Rimouski, Rivière du Loup, Saguenay, Témiscouata, and part of Beauharnois.
Regina, Sask. ....	Province of Saskatchewan.
Saint John, N.B. ....	Province of New Brunswick.
St. John's, Nfld. ....	Province of Newfoundland.
Sudbury, Ont. ....	Judicial Districts of Algoma, Cochrane, Manitoulin, Sudbury and Timiskaming, and part of the Judicial District of Nipissing lying North and West of the Townships of Ballantyne, Boyd, Cameron, Pentland and Wilkes and part of the district of Parry Sound in the Province of Ontario and part of the Counties of Abitibi and Temiscamingue in the Province of Quebec.
Trois Rivières, P.Q. ....	Counties of Abitibi, Arthabaska, Beauce, Bellechasse, Berthier, Chambly, Champlain, Chateauguay, Compton, Deux-Montagnes, Dorchester, Drummond, Frontenac, Huntingdon, Joliette, L'Assomption, Lévis, L'Islet, Lotbinière, Maskinongé, Mégantic, Montcalm, Montmagny, Nicolet, Portneuf, Québec, Richelieu, Richmond, Sherbrooke, St-Hyacinthe, St-Maurice, Terrebonne, Verchères, Wolfe and Yamaska Beauharnois, Jesus Island, Laprairie, Napierville and St. Jean.
Toronto, Ont. ....	Judicial Districts of Muskoka, Parry Sound, and the Counties of Dufferin, Durham, Grey, Ontario, Peel, Simcoe, Victoria, Wellington, York, and part of Bruce, Haliburton, Halton, Huron, part of Peterborough and Perth Counties and Nipissing District.
Vancouver, B.C. ....	That part of the mainland of the Province of British Columbia except the area bounded by the 121st Meridian on the West and the Alberta Boundary on the East and the 52nd Parallel of Latitude on the North and all Towns on the mainland of British Columbia served by the Southern Interior Meter Section of the British Columbia Power Commission and the Inland Natural Gas Company; and the Yukon Territory.
Winnipeg, Man. ....	Province of Manitoba.

TABLE 1. Electric and Gas Meter Registrations for the years Ended December 31, 1941 to 1964

## ELECTRIC AND GAS METER REGISTRATIONS

1965

The terms "Electric Meter Registrations" and "Gas Meter Registrations" are used throughout this report in reference to the number of meters in service as reported by companies engaged in the sale of electricity or gas in applications for certificate of registration. Each company is required to obtain a certificate of registration from the Department of Trade and Commerce, Standards Branch, not later than the 31 st of March each year, for all meters in service at the end of the previous year.

Prior to 1956 the Electric and Gas Meter Registrations report was published by the Standards Division of the Department of Trade and Commerce in the "Report of the Standards Division", which covered the fiscal year ending on March 31. Since 1957 the report has been for the calendar year. A table showing electric meter registrations by province and company was first compiled for the 1958 report.

Since 1964, a new system of regional reporting has been inaugurated. Under the new system, data are collected and compiled on the basis of "Incorporated Villages, Towns and Cities" and "Other Locations" with 50 or more meters. Previous publications listed meters in use on an "Urban" and "Rural" tabulation. The number of meters reported in service by companies engaged in the sale of electricity in Canada rose to 6,152,450 at December 31, 1965 from 5,978,431 one year earlier, an increase of 174,019 or 2.9 p.c. Meters employed in measuring electricity consumption at domestic rates numbered 5,022,708 as against 4,867,184 in 1964. Meters classed as commercial rose to 639,677 from 623,241 and those classed as power increased to 131,482 from 127,611 while farm meters registered a decrease of 1,812 to 358,583 in 1965 from 360,395 in 1964. Many utilities do not distinguish between domestic (located in other locations) and farm meters so the report is not too reliable unless the two categories are grouped.

A total of 1,653,076 natural, manufactured and other gas meters was reported in service at the end of 1965 an increase of 4.2 p.c. over the 1,587,018 recorded in 1964. At the year end only 15,646 meters remained in manufactured gas service, as compared with 15,953 in 1964, and 610,096 in 1950, the peak year. Meters in natural gas service rose 4.2 p.c. to 1,617,678 from 1,553,106. Manufactured and L.P.G. - air gases were being used in only three provinces - British Columbia, Ontario and Quebec at the year end.

Table 6 is produced with the use of the "Standard Geographical Classification Manual". This manual is intended to serve as a general framework for publishing statistical information. It presents a classification system for provinces, counties or census divisions, municipalities and unorganized areas within each county or census division. We have in this publication made use of six of the nine digit code numbers from this manual.

The first two digits of the code number designate the province and areas outside, coded as follows:

- |                          |                          |
|--------------------------|--------------------------|
| 10. Newfoundland         | 46. Manitoba             |
| 11. Prince Edward Island | 47. Saskatchewan         |
| 12. Nova Scotia          | 48. Alberta              |
| 13. New Brunswick        | 59. British Columbia     |
| 24. Quebec               | 6- Yukon                 |
| 35. Ontario              | 6+ Northwest Territories |

The third and fourth digits indicate the counties or census divisions within each province and in the Yukon and Northwest Territories, the districts.

The fifth and sixth digits constitute the municipality or other local area code within counties or census divisions. The nature of these local areas differs slightly from province to province but are coded as uniformly as possible in such a system. Numbers from 01 to 79 and 91 to 98 designate urban municipalities, rural municipalities, improvement districts, census subdivisions and similar areas. Numbers from 80 to 89 designate Indian Reserves, and the code 90 designates an unorganized part or parts. The code 99 has been allocated to define balance of meters in each county or census division which have not been coded elsewhere.

# ELECTRICITY AND GAS INSPECTION DISTRICTS

For purposes of inspection under the Electricity Inspection Act and the Gas Inspection Act, the provinces of the Dominion have been divided into the following districts:

District	District composed of
Belleville, Ont. ....	Counties of Durham, Frontenac, Haliburton, Hastings, Leeds (Exclusive of the towns of Athens, Newboro and Westport), Lennox and Addington, Northumberland, part of Peterborough, Prince Edward, Victoria and part of Renfrew and York.
Calgary, Alta. ....	All that part of the Province of Alberta lying south of the northerly boundary of Township No. 37.
Charlottetown, P.E.I. ...	Province of Prince Edward Island.
Edmonton, Alta. ....	All that part of the province of Alberta lying north of the northerly boundary of Township No. 37, and the Northwest Territories.
Fort William, Ont. ....	Judicial Districts of Kenora, Rainy River and Thunder Bay.
Halifax, N.S. ....	Province of Nova Scotia.
Hamilton, Ont. ....	Counties of Brant, Haldimand, Halton, Lincoln, Norfolk, Waterloo, Welland, and Wentworth, and part of Dufferin, Elgin, Huron, Oxford, Perth and Wellington.
Kamloops, B.C. ....	(Now listed under Penticton.)
London, Ont. ....	Counties of Bruce, Elgin, Essex, Huron, Kent, Lambton, Middlesex, Oxford and Perth, and part of Grey, Norfolk, Waterloo and Wellington.
Montreal, P.Q. ....	Counties of Arthabaska, Bagot, Brome, Chambly, Compton, Drummond, Frontenac, Iberville, Jesus Island, Labelle, Laprairie, L'Assomption, Missisquoi, Montcalm, Montréal Island, Napierville, Nicolet, Richelieu, Richmond, Rouville, St-Hyacinthe, St-Jean, Shefford, Sherbrooke, Soulanges, Stanstead, Terrebonne, Verchères, Wolfe and Yamaska.
Ottawa, Ont. ....	That part of the Judicial District of Nipissing lying South and East of and including the Townships of Ballantyne, Boyd, Cameron, Pentland and Wilkes, the Counties of Carleton, Dundas, Glengarry, Grenville, Lanark, Prescott, Renfrew, Russell and Stormont, and the towns of Athens, Newboro and Westport in the County of Leeds, and part of Frontenac and Hastings in the Province of Ontario; and the Counties of Argenteuil, Gatineau, Hull, Labelle, L'Assomption, Montcalm, Papineau, Pontiac, Soulanges, Terrebonne, Vaudreuil and part of Deux Montagnes in the Province of Quebec.
Penticton, B.C. ....	That part of the mainland of the Province of British Columbia bounded by the 121st Meridian on the West and the Alberta Boundary on the East and the 52nd Parallel of Latitude on the North and all Towns on the mainland of British Columbia served by the Southern Interior Meter Section of the British Columbia Power Commission and the Inland Natural Gas Company.
Quebec, P.Q. ....	Counties of Beauce, Bellechasse, Bonaventure, Charlevoix-Est, Charlevoix-Ouest, Chicoutimi, Gaspé-Est, Gaspé-Ouest, Iles-de-la-Madeleine, Kamouraska, Lac-St-Jean Est, Lac-St-Jean Ouest, Lévis, L'Islet, Lotbinière, Matane, Matapédia, Mégantic, Montmagny, Montmorency 1, Montmorency 2, Portneuf, Quebec, Rimouski, Rivière du Loup, Saguenay, Témiscouata, and part of Beauharnois.
Regina, Sask. ....	Province of Saskatchewan.
Saint John, N.B. ....	Province of New Brunswick.
St. John's, Nfld. ....	Province of Newfoundland.
Sudbury, Ont. ....	Judicial Districts of Algoma, Cochrane, Manitoulin, Sudbury and Timiskaming, and part of the Judicial District of Nipissing lying North and West of the Townships of Ballantyne, Boyd, Cameron, Pentland and Wilkes and part of the district of Parry Sound in the Province of Ontario and part of the Counties of Abitibi and Temiscamingue in the Province of Quebec.
Trois Rivières, P.Q. ....	Counties of Abitibi, Arthabaska, Beauce, Bellechasse, Berthier, Chambly, Champlain, Chateauguay, Compton, Deux-Montagnes, Dorchester, Drummond, Frontenac, Huntingdon, Joliette, L'Assomption, Lévis, L'Islet, Lotbinière, Maskinongé, Mégantic, Montcalm, Montmagny, Nicolet, Portneuf, Québec, Richelieu, Richmond, Sherbrooke, St-Hyacinthe, St-Maurice, Terrebonne, Verchères, Wolfe and Yamaska, Beauharnois, Jesus Island, Laprairie, Napierville and St. Jean.
Toronto, Ont. ....	Judicial Districts of Muskoka, Parry Sound, and the Counties of Dufferin, Durham, Grey, Ontario, Peel, Simcoe, Victoria, Wellington, York, and part of Bruce, Haliburton, Halton, Huron, part of Peterborough and Perth Counties and Nipissing District.
Vancouver, B.C. ....	That part of the mainland of the Province of British Columbia except the area bounded by the 121st Meridian on the West and the Alberta Boundary on the East and the 52nd Parallel of Latitude on the North and all Towns on the mainland of British Columbia served by the Southern Interior Meter Section of the British Columbia Power Commission and the Inland Natural Gas Company; and the Yukon Territory.
Winnipeg, Man. ....	Province of Manitoba.

ELECTRIC POWER

Catalogue number	Title	Price
	Annual	
57-201	Electric and Gas Meter Registrations. Approx. 150 pp.	
	Meter registrations by province, county or census division, company and place served, by type of service .....	\$1.50
57-202	Electric Power Statistics Vol. II - Annual Statistics. Approx. 70 pp.	
	Summary and detailed analyses of generation and use of electric power in Canada, power plant equipment, customers, employees, salaries and wages, financial statistics and historical tabulation of supply and disposal of electric energy .....	1.00
57-203	Electricity Bills for Domestic, Commercial and Small Power Service. Approx. 15 pp.	
	Includes an annual index of electricity bills for domestic service and bills for light and power in cities and representative munici- palities .....	.50
57-204	Electric Power Statistics, Vol. 1 - Annual Electric Power Survey of Capability and Load. Approx. 45 pp.	
	Current and projected data of capability and load of major pro- ducers of electric energy in Canada .....	.75
	Monthly	
57-001	Electric Power Statistics. Approx. 8 pp.	
	Production by utilities and industrial establishments, imports and exports, power made available for use in Canada, secondary energy used, sales to ultimate customers by rate category, cumulative monthly totals for year to date, by province .....	1.00
	Occasional	
57-502	Inventory of Prime Mover and Electric Generating Equipment. Approx. 120 pp.	
	A list of generating plants in Canada by ownership, showing the lo- cation, year of installation, name-plate rating and other details of each unit, as at December 31, 1961 .....	1.50
	Remittances should be in the form of cheque or money order, made payable to the Receiver General of Canada and forwarded to the Publications Distribution, Dominion Bureau of Statistics, Ottawa, or to the Queen's Printer, Hull, P.Q.

## ELECTRIC AND GAS METER REGISTRATIONS

1966

The terms "Electric Meter Registrations" and "Gas Meter Registrations" are used throughout this report in reference to the number of meters in service as reported by companies engaged in the sale of electricity or gas in applications for certificate of registration. Each company is required to obtain a certificate of registration from the Department of Trade and Commerce, Standards Branch, not later than the 31 st of March each year, for all meters in service at the end of the previous year.

Prior to 1956 the Electric and Gas Meter Registrations report was published by the Standards Division of the Department of Trade and Commerce in the "Report of the Standards Division", which covered the fiscal year ending on March 31. Since 1957 the report has been for the calendar year. A table showing electric meter registrations by province and company was first compiled for the 1958 report.

Since 1964, a new system of regional reporting has been inaugurated. Under the new system, data are collected and compiled on the basis of "Incorporated Villages, Towns and Cities" and "Other Locations" with 50 or more meters. Previous publications listed meters in use on an "Urban" and "Rural" tabulation. The number of meters reported in service by companies engaged in the sale of electricity in Canada rose to 6,323,795 at December 31, 1966 from 6,152,450 one year earlier, an increase of 171,345 or 2.8 p.c. Meters employed in measuring electricity consumption at domestic rates numbered 5,170,834 as against 5,022,708 in 1965. Meters classed as commercial rose to 650,099 from 639,677 and those classed as power increased to 136,942 from 131,482 while farm meters registered an increase of 7,337 to 365,920 in 1965 from 358,583 in 1965. Many utilities do not distinguish between domestic (located in other locations) and farm meters so the report is not too reliable unless the two categories are grouped.

A total of 1,714,333 natural, manufactured and other gas meters was reported in service at the end of 1966 an increase of 3.7 p.c. over the 1,653,076 recorded in 1965. At the year end only 14,785 meters remained in manufactured gas service, as compared with 15,646 in 1965, and 610,096 in 1950, the peak year. Meters in natural gas service rose 3.7 p.c. to 1,678,963 from 1,617,678. Manufactured and L.P.G. - air gases were being used in only three provinces - British Columbia, Ontario and Quebec at the year end.

Table 6 is produced with the use of the "Standard Geographical Classification Manual". This manual is intended to serve as a general framework for publishing statistical information. It presents a classification system for provinces, counties or census divisions, municipalities and unorganized areas within each county or census division. We have in this publication made use of six of the nine digit code numbers from this manual.

The first two digits of the code number designate the province and areas outside, coded as follows:

- |                          |                          |
|--------------------------|--------------------------|
| 10. Newfoundland         | 46. Manitoba             |
| 11. Prince Edward Island | 47. Saskatchewan         |
| 12. Nova Scotia          | 48. Alberta              |
| 13. New Brunswick        | 59. British Columbia     |
| 24. Quebec               | 6- Yukon                 |
| 35. Ontario              | 6+ Northwest Territories |

The third and fourth digits indicate the counties or census divisions within each province and in the Yukon and Northwest Territories, the districts.

The fifth and sixth digits constitute the municipality or other local area code within counties or census divisions. The nature of these local areas differs slightly from province to province but are coded as uniformly as possible in such a system. Numbers from 01 to 79 and 91 to 98 designate urban municipalities, rural municipalities, improvement districts, census subdivisions and similar areas. Numbers from 80 to 89 designate Indian Reserves, and the code 90 designates an unorganized part or parts. The code 99 has been allocated to define balance of meters in each county or census division which have not been coded elsewhere.

# ELECTRICITY AND GAS INSPECTION DISTRICTS

For purposes of inspection under the Electricity Inspection Act and the Gas Inspection Act, the provinces of the Dominion have been divided into the following districts:

District	District composed of
Belleville, Ont. ....	Counties of Durham, Frontenac, Haliburton, Hastings, Leeds (Exclusive of the towns of Athens, Newboro and Westport), Lennox and Addington, Northumberland, part of Peterborough, Prince Edward, Victoria and part of Renfrew and York.
Calgary, Alta. ....	All that part of the Province of Alberta lying south of the northerly boundary of Township No. 37.
Charlottetown, P.E.I. ...	Province of Prince Edward Island.
Edmonton, Alta. ....	All that part of the province of Alberta lying north of the northerly boundary of Township No. 37, and the Northwest Territories.
Fort William, Ont. ....	Judicial Districts of Kenora, Rainy River and Thunder Bay.
Halifax, N.S. ....	Province of Nova Scotia.
Hamilton, Ont. ....	Counties of Brant, Haldimand, Halton, Lincoln, Norfolk, Waterloo, Welland, and Wentworth, and part of Dufferin, Elgin, Huron, Oxford, Perth and Wellington.
Kamloops, B.C. ....	(Now listed under Penticton.)
London, Ont. ....	Counties of Bruce, Elgin, Essex, Huron, Kent, Lambton, Middlesex, Oxford and Perth, and part of Grey, Norfolk, Waterloo and Wellington.
Montreal, P.Q. ....	Counties of Arthabaska, Bagot, Brome, Chambly, Compton, Drummond, Frontenac, Iberville, Jesus Island, Labelle, Laprairie, L'Assomption, Missisquoi, Montcalm, Montreal Island, Napierville, Nicolet, Richelieu, Richmond, Rouville, St-Hyacinthe, St-Jean, Shefford, Sherbrooke, Soulanges, Stanstead, Terrebonne, Verchères, Wolfe and Yamaska.
Ottawa, Ont. ....	That part of the Judicial District of Nipissing lying South and East of and including the Townships of Ballantyne, Boyd, Cameron, Pentland and Wilkes, the Counties of Carleton, Dundas, Glengarry, Grenville, Lanark, Prescott, Renfrew, Russell and Stormont, and the towns of Athens, Newboro and Westport in the County of Leeds, and part of Frontenac and Hastings in the Province of Ontario; and the Counties of Argenteuil, Gatineau, Hull, Labelle, L'Assomption, Montcalm, Papineau, Pontiac, Soulanges, Terrebonne, Vaudreuil and part of Deux Montagnes in the Province of Quebec.
Penticton, B.C. ....	That part of the mainland of the Province of British Columbia bounded by the 121st Meridian on the West and the Alberta Boundary on the East and the 52nd Parallel of Latitude on the North and all Towns on the mainland of British Columbia served by the Southern Interior Meter Section of the British Columbia Power Commission and the Inland Natural Gas Company.
Quebec, P.Q. ....	Counties of Beauce, Bellechasse, Bonaventure, Charlevoix-Est, Charlevoix-Ouest, Chicoutimi, Gaspé-Est, Gaspé-Ouest, Iles-de-la-Madeleine, Kamouraska, Lac-St-Jean Est, Lac-St-Jean Ouest, Lévis, L'Islet, Lotbinière, Matane, Matapédia, Mégantic, Montmagny, Montmorency 1, Montmorency 2, Portneuf, Quebec, Rimouski, Rivière du Loup, Saguenay, Témiscouata, and part of Beauharnois.
Regina, Sask. ....	Province of Saskatchewan.
Saint John, N.B. ....	Province of New Brunswick.
St. John's, Nfld. ....	Province of Newfoundland.
Sudbury, Ont. ....	Judicial Districts of Algoma, Cochrane, Manitoulin, Sudbury and Timiskaming, and part of the Judicial District of Nipissing lying North and West of the Townships of Ballantyne, Boyd, Cameron, Pentland and Wilkes and part of the district of Parry Sound in the Province of Ontario and part of the Counties of Abitibi and Temiscamingue in the Province of Quebec.
Trois Rivières, P.Q. ....	Counties of Abitibi, Arthabaska, Beauce, Bellechasse, Berthier, Chambly, Champlain, Chateauguay, Compton, Deux-Montagnes, Dorchester, Drummond, Frontenac, Huntingdon, Joliette, L'Assomption, Lévis, L'Islet, Lotbinière, Maskinongé, Mégantic, Montcalm, Montmagny, Nicolet, Portneuf, Québec, Richelieu, Richmond, Sherbrooke, St-Hyacinthe, St-Maurice, Terrebonne, Verchères, Wolfe and Yamaska, Beauharnois, Jesus Island, Laprairie, Napierville and St. Jean.
Toronto, Ont. ....	Judicial Districts of Muskoka, Parry Sound, and the Counties of Dufferin, Durham, Grey, Ontario, Peel, Simcoe, Victoria, Wellington, York, and part of Bruce, Haliburton, Halton, Huron, part of Peterborough and Perth Counties and Nipissing District.
Vancouver, B.C. ....	That part of the mainland of the Province of British Columbia except the area bounded by the 121st Meridian on the West and the Alberta Boundary on the East and the 52nd Parallel of Latitude on the North and all Towns on the mainland of British Columbia served by the Southern Interior Meter Section of the British Columbia Power Commission and the Inland Natural Gas Company; and the Yukon Territory.
Winnipeg, Man. ....	Province of Manitoba.

TABLE 1. Electric and Gas Meter Registrations for the years Ended December 31, 1946 to 1966

Year	Electricity meters	Gas meters					Total meters
		Manufactured	Natural	Acetylene	Bottled	Total	
1946 .....	2,647,040	560,046	225,952	4	1,725	787,727	3,434,767

## ELECTRIC AND GAS METER REGISTRATIONS

1967

The terms "Electric Meter Registrations" and "Gas Meter Registrations" are used throughout this report in reference to the number of meters in service as reported by companies engaged in the sale of electricity or gas in applications for certificate of registration. Each company is required to obtain a certificate of registration from the Department of Trade and Commerce, Standards Branch, not later than the 31st of March each year, for all meters in service at the end of the previous year.

Prior to 1956 the Electric and Gas Meter Registrations report was published by the Standards Division of the Department of Trade and Commerce in the "Report of the Standards Division", which covered the fiscal year ending on March 31. Since 1957 the report has been for the calendar year. A table showing electric meter registrations by province and company was first compiled for the 1958 report.

Since 1964, a new system of regional reporting has been inaugurated. Under the new system, data are collected and compiled on the basis of "Incorporated Villages, Towns and Cities" and "Other Locations" with 50 or more meters. Previous publications listed meters in use on an "Urban" and "Rural" tabulation. The number of meters reported in service by companies engaged in the sale of electricity in Canada rose to 6,488,161 at December 31, 1967 from 6,323,795 one year earlier, an increase of 164,366 or 2.6 p.c. Meters employed in measuring electricity consumption at domestic rates numbered 5,308,297 as against 5,170,834 in 1966. Meters classed as commercial rose to 669,211 from 650,099 and those classed as power increased to 143,217 from 136,942 while farm meters registered an increase of 1,516 to 367,436 in 1967 from 365,920 in 1966. Many utilities do not distinguish between domestic (located in other locations) and farm meters so the report is not too reliable unless the two categories are grouped.

A total of 1,776,609 natural, manufactured and other gas meters was reported in service at the end of 1967 an increase of 3.6 p.c. over the 1,714,336 recorded in 1966. At the year end only 14,248 meters remained in manufactured gas service, as compared with 14,785 in 1966, and 610,096 in 1950, the peak year. Meters in natural gas service rose 3.6 p.c. to 1,739,577 from 1,678,963.

Table 6 is produced with the use of the "Standard Geographical Classification Manual". This manual is intended to serve as a general framework for publishing statistical information. It presents a classification system for provinces, counties or census divisions, municipalities and unorganized areas within each county or census division. We have in this publication made use of six of the nine digit code numbers from this manual.

The first two digits of the code number designate the province and areas outside, coded as follows:

10. Newfoundland	46. Manitoba
11. Prince Edward Island	47. Saskatchewan
12. Nova Scotia	48. Alberta
13. New Brunswick	59. British Columbia
24. Quebec	6- Yukon
35. Ontario	6+ Northwest Territories

The third and fourth digits indicate the counties or census divisions within each province and in the Yukon and Northwest Territories, the districts.

The fifth and sixth digits constitute the municipality or other local area code within counties or census divisions. The nature of these local areas differs slightly from province to province but are coded as uniformly as possible in such a system. Numbers from 01 to 79 and 91 to 98 designate urban municipalities, rural municipalities, improvement districts, census subdivisions and similar areas. Numbers from 80 to 89 designate Indian Reserves, and the code 90 designates an unorganized part or parts. The code 99 has been allocated to define balance of meters in each county or census division which have not been coded elsewhere.

# ELECTRICITY AND GAS INSPECTION DISTRICTS

For purposes of inspection under the Electricity Inspection Act and the Gas Inspection Act, the provinces of the Dominion have been divided into the following districts:

District	District composed of
Belleville, Ont. ....	Counties of Durham, Frontenac, Haliburton, Hastings, Leeds (Exclusive of the towns of Athens, Newboro and Westport), Lennox and Addington, Northumberland, part of Peterborough, Prince Edward, Victoria and part of Renfrew and York.
Calgary, Alta. ....	All that part of the Province of Alberta lying south of the northerly boundary of Township No. 37.
Charlottetown, P.E.I. ...	Province of Prince Edward Island.
Edmonton, Alta. ....	All that part of the province of Alberta lying north of the northerly boundary of Township No. 37, and the Northwest Territories.
Fort William, Ont. ....	Judicial Districts of Kenora, Rainy River and Thunder Bay.
Halifax, N.S. ....	Province of Nova Scotia.
Hamilton, Ont. ....	Counties of Brant, Haldimand, Halton, Lincoln, Norfolk, Waterloo, Welland, and Wentworth, and part of Dufferin, Elgin, Huron, Oxford, Perth and Wellington.
Kamloops, B.C. ....	(Now listed under Penticton.)
London, Ont. ....	Counties of Bruce, Elgin, Essex, Huron, Kent, Lambton, Middlesex, Oxford and Perth, and part of Grey, Norfolk, Waterloo and Wellington.
Montreal, P.Q. ....	Counties of Arthabaska, Bagot, Brome, Chambly, Compton, Drummond, Frontenac, Iberville, Jesus Island, Labelle, Laprairie, L'Assomption, Missisquoi, Montcalm, Montréal Island, Napierville, Nicolet, Richelieu, Richmond, Rouville, St-Hyacinthe, St-Jean, Shefford, Sherbrooke, Soulanges, Stanstead, Terrebonne, Verchères, Wolfe and Yamaska.
Ottawa, Ont. ....	That part of the Judicial District of Nipissing lying South and East of and including the Townships of Ballantyne, Boyd, Cameron, Pentland and Wilkes, the Counties of Carleton, Dundas, Glengarry, Grenville, Lanark, Prescott, Renfrew, Russell and Stormont, and the towns of Athens, Newboro and Westport in the County of Leeds, and part of Frontenac and Hastings in the Province of Ontario; and the Counties of Argenteuil, Gatineau, Hull, Labelle, L'Assomption, Montcalm, Papineau, Pontiac, Soulanges, Terrebonne, Vaudreuil and part of Deux Montagnes in the Province of Quebec.
Penticton, B.C. ....	That part of the mainland of the Province of British Columbia bounded by the 121st Meridian on the West and the Alberta Boundary on the East and the 52nd Parallel of Latitude on the North and all Towns on the mainland of British Columbia served by the Southern Interior Meter Section of the British Columbia Power Commission and the Inland Natural Gas Company.
Quebec, P.Q. ....	Counties of Beauce, Bellechasse, Bonaventure, Charlevoix-Est, Charlevoix-Ouest, Chicoutimi, Gaspé-Est, Gaspé-Ouest, Îles-de-la-Madeleine, Kamouraska, Lac-St-Jean Est, Lac-St-Jean Ouest, Lévis, L'Islet, Lotbinière, Matane, Matapédia, Mégantic, Montmagny, Montmorency 1, Montmorency 2, Portneuf, Quebec, Rimouski, Rivière du Loup, Saguenay, Témiscouata, and part of Beauharnois.
Regina, Sask. ....	Province of Saskatchewan.
Saint John, N.B. ....	Province of New Brunswick.
St. John's, Nfld. ....	Province of Newfoundland.
Sudbury, Ont. ....	Judicial Districts of Algoma, Cochrane, Manitoulin, Sudbury and Timiskaming, and part of the Judicial District of Nipissing lying North and West of the Townships of Ballantyne, Boyd, Cameron, Pentland and Wilkes and part of the district of Parry Sound in the Province of Ontario and part of the Counties of Abitibi and Temiscamingue in the Province of Quebec.
Trois Rivières, P.Q. ....	Counties of Abitibi, Arthabaska, Beauce, Bellechasse, Berthier, Chambly, Champlain, Chateaugay, Compton, Deux-Montagnes, Dorchester, Drummond, Frontenac, Huntingdon, Joliette, L'Assomption, Lévis, L'Islet, Lotbinière, Maskinongé, Mégantic, Montcalm, Montmagny, Nicolet, Portneuf, Québec, Richelieu, Richmond, Sherbrooke, St-Hyacinthe, St-Maurice, Terrebonne, Verchères, Wolfe and Yamaska, Beauharnois, Jesus Island, Laprairie, Napierville and St. Jean.
Toronto, Ont. ....	Judicial Districts of Muskoka, Parry Sound, and the Counties of Dufferin, Durham, Grey, Ontario, Peel, Simcoe, Victoria, Wellington, York, and part of Bruce, Haliburton, Halton, Huron, part of Peterborough and Perth Counties and Nipissing District.
Vancouver, B.C. ....	That part of the mainland of the Province of British Columbia except the area bounded by the 121st Meridian on the West and the Alberta Boundary on the East and the 52nd Parallel of Latitude on the North and all Towns on the mainland of British Columbia served by the Southern Interior Meter Section of the British Columbia Power Commission and the Inland Natural Gas Company; and the Yukon Territory.
Winnipeg, Man. ....	Province of Manitoba.

ELECTRIC POWER

Catalogue  
number

Title

Annual

57-201 Electric and Gas Meter Registrations.

Meter registrations by province, company and type of meter.

57-202 Electric Power Statistics Vol. II - Annual Statistics.

Summary and detailed analyses of generation and use of electric energy in Canada, power plant equipment, customers, employees, salaries and wages, financial statistics and historical tabulation of supply and disposal of electric energy.

57-203 Electricity Bills for Domestic, Commercial and Small Power Service.

Examples of electricity bills for domestic, commercial and small power service in cities and representative municipalities.

57-204 Electric Power Statistics, Vol. 1 - Annual Electric Power Survey of Capability and Load.

Current and projected data of capability and load of major producers of electric energy in Canada.

Monthly

57-001 Electric Power Statistics

Production by utilities and industrial establishments, imports and exports, power made available for use in Canada, secondary energy used, sales to ultimate customers by rate category, cumulative monthly totals for year to date, by province.

Occasional

57-503 Electric Power Statistics, Vol. III - Inventory of Prime Mover and Electric Generating Equipment.

A list of generating plants in Canada by ownership, showing the location, year of installation, name-plate rating and other details of each unit, as at December 31, 1966.

In addition to the selected publications listed above, the Dominion Bureau of Statistics publishes a wide range of statistical reports on Canadian economic and social affairs. A comprehensive catalogue of all current publications is available free on request from the Dominion Bureau of Statistics, Ottawa 3.

## ELECTRIC AND GAS METER REGISTRATIONS

1968

The terms "Electric Meter Registrations" and "Gas Meter Registrations" are used throughout this report in reference to the number of meters in service as reported by companies engaged in the sale of electricity or gas in applications for certificate of registration. Each company is required to obtain a certificate of registration from the Department of Industry, Trade and Commerce, Standards Branch, not later than the 31st of March each year, for all meters in service at the end of the previous year.

Prior to 1956 the Electric and Gas Meter Registrations report was published by the Standards Division of the Department of Trade and Commerce in the "Report of the Standards Division", which covered the fiscal year ending on March 31. Since 1957 the report has been for the calendar year. A table showing electric meter registrations by province and company was first compiled for the 1958 report.

Due to its doubtful accuracy and limited use, regional reporting of electric meter registrations by incorporated municipalities was discontinued in 1968. Also, in order to conform more closely with the respondents records the domestic, commercial and power meter breakdown has been replaced by a tabulation by type of meter e.g. watthour, prepayment, etc.

The number of meters reported in service by companies engaged in the sale of electricity in Canada rose to 6,718,933 at December 31, 1968 from 6,488,161 one year earlier, an increase of 230,772 or 3.6 p.c. Single phase and polyphase watthour meters numbered 6,221,366 and 159,381 respectively. There was a total of 337,807 other A.C. meters in service at the end of the year of which 240,853 were single phase and 96,954 were polyphase. Other types of meters in service included 136 prepayment A.C. meters and 243 D.C. meters. All A.C. meters were of the 60 hertz variety with the exception of 25 hertz meters in Ontario and Quebec and 50 hertz meters in Newfoundland numbering 146 and 693 respectively.

A total of 1,838,601 natural, manufactured and other gas meters was reported in service at the end of 1968 an increase of 3.5 p.c. over the 1,776,609 recorded in 1967. At the year end only 11,188 meters remained in manufactured gas service, as compared with 14,248 in 1967 and 610,096 in 1950, the base year. Meters in natural gas service rose 3.9 p.c. to 1,807,353 from 1,739,577.

# ELECTRICITY AND GAS INSPECTION DISTRICTS

For purposes of inspection under the Electricity Inspection Act and the Gas Inspection Act, the provinces of the Dominion have been divided into the following districts:

District	District composed of
Belleville, Ont. ....	Counties of Durham, Frontenac, Haliburton, Hastings, Leeds (Exclusive of the towns of Athens, Newboro and Westport), Lennox and Addington, Northumberland, part of Peterborough, Prince Edward Victoria and part of Renfrew and York.
Calgary, Alta. ....	All that part of the Province of Alberta lying south of the northerly boundary of Township No. 37.
Charlottetown, P.E.I. ..	Province of Prince Edward Island.
Edmonton, Alta. ....	All that part of the province of Alberta lying north of the northerly boundary of Township No. 37, and the Northwest Territories.
Fort William, Ont. ....	Judicial Districts of Kenora, Rainy River and Thunder Bay.
Halifax, N.S. ....	Province of Nova Scotia.
Hamilton, Ont. ....	Counties of Brant, Haldimand, Halton, Lincoln, Norfolk, Waterloo, Welland, and Wentworth, and part of Dufferin, Elgin, Huron, Oxford, Perth and Wellington.
Kamloops, B.C. ....	(Now listed under Penticton.)
London, Ont. ....	Counties of Bruce, Elgin, Essex, Huron, Kent, Lambton, Middlesex, Oxford and Perth, and part of Grey, Norfolk, Waterloo and Wellington.
Montreal, P.Q. ....	Counties of Arthabaska, Bagot, Brome, Chambly, Compton, Drummond, Frontenac, Iberville, Jesus Island, Labelle, Laprairie, L'Assomption, Missisquoi, Montcalm, Montreal Island, Napierville, Nicolet, Richmond, Rouville, St-Hyacinthe, St-Jean, Shefford, Sherbrooke, Soulanges, Stanstead, Terrebonne, Verchères, Wolfe and Yamaska.
Ottawa, Ont. ....	That part of the Judicial District of Nipissing lying South and East of and including the Townships of Ballantyne, Boyd, Cameron, Pentland and Wilkes, the Counties of Carleton, Dundas, Glengarry, Grenville, Lanark, Prescott, Renfrew, Russell and Stormont, and the towns of Athens, Newboro and Westport in the County of Leeds, and part of Frontenac and Hastings in the Province of Ontario; and the Counties of Argenteuil, Gatineau, Hull, Labelle, L'Assomption, Montcalm, Papineau, Pontiac, Soulanges, Terrebonne, Vaudreuil and part of Deux Montagnes in the Province of Quebec.
Penticton, B.C. ....	That part of the mainland of the Province of British Columbia bounded by the 121st Meridian on the West and the Alberta Boundary on the East and the 52nd Parallel of Latitude on the North and all Towns on the mainland of British Columbia served by the Southern Interior Meter Section of the British Columbia Power Commission and the Inland Natural Gas Company.
Quebec, P.Q. ....	Counties of Beauce, Bellechasse, Bonaventure, Charlevoix-Est, Charlevoix-Ouest, Chicoutimi, Gaspé-Est, Gaspé-Ouest, Iles-de-la-Madeleine, Kamouraska, Lac-St-Jean Est, Lac-St-Jean Ouest, Lévis, L'Islet, Lotbinière, Matane, Matapédia, Mégantic, Montmagny, Montmorency 1, Montmorency 2, Portneuf, Quebec, Rimouski, Rivière du Loup, Saguenay, Témiscouata, and part of Beauharnois.
Regina, Sask. ....	Province of Saskatchewan.
Saint John, N.B. ....	Province of New Brunswick.
St. John's, Nfld. ....	Province of Newfoundland.
Sudbury, Ont. ....	Judicial Districts of Algoma, Cochrane, Manitoulin, Sudbury and Timiskaming, and part of the Judicial District of Nipissing lying North and West of the Townships of Ballantyne, Boyd, Cameron, Pentland and Wilkes and part of the district of Parry Sound in the Province of Ontario and part of the Counties of Abitibi and Temiscamingue in the Province of Quebec.
Trois Rivières, P.Q. ...	Counties of Abitibi, Arthabaska, Beauce, Bellechasse, Berthier, Chambly, Champlain, Chateauguay, Compton, Deux-Montagnes, Dorchester, Drummond, Frontenac, Huntingdon, Joliette, L'Assomption, Lévis, L'Islet, Lotbinière, Maskinongé, Mégantic, Montcalm, Montmagny, Nicolet, Portneuf, Québec, Richelieu, Richmond, Sherbrooke, St-Hyacinthe, St-Maurice, Terrebonne, Verchères, Wolfe and Yamaska, Beauharnois, Jesus Island, Laprairie, Napierville and St. Jean.
Toronto, Ont. ....	Judicial Districts of Muskoka, Parry Sound, and the Counties of Dufferin, Durham, Grey, Ontario, Peel, Simcoe, Victoria, Wellington, York, and part of Bruce, Haliburton, Halton, Huron, part of Peterborough and Perth Counties and Nipissing District.
Vancouver, B.C. ....	That part of the mainland of the Province of British Columbia except the area bounded by the 121st Meridian on the West and the Alberta Boundary on the East and the 52nd Parallel of Latitude on the North and all Towns on the mainland of British Columbia served by the Southern Interior Meter Section of the British Columbia Power Commission and the Inland Natural Gas Company; and the Yukon Territory.
Winnipeg, Man. ....	Province of Manitoba.

TABLE 1. Electric and Gas Meter Registrations for the years Ended December 31, 1948 to 1968

Year	Electricity meters	Gas meters					Total meters

## ELECTRIC AND GAS METER REGISTRATIONS

1969

The terms "Electric Meter Registrations" and "Gas Meter Registrations" are used throughout this report in reference to the number of meters in service as reported by companies engaged in the sale of electricity or gas in applications for certificate of registration. Each company is required to obtain a certificate of registration from the Department of Consumer and Corporate Affairs, Standards Branch, not later than the 31st of March each year, for all meters in service at the end of the previous year.

For the purposes of inspection, under the Electricity Inspection Act and the Gas Inspection Act, the provinces have been divided into districts. Meters reported in Tables 3, 5, 8 and 10 of this publication have been grouped by inspection district. The geographic area covered by each inspection district is available from the Standards Branch of the Department of Consumer and Corporate Affairs.

Prior to 1956 the Electric and Gas Meter Registrations report was published by the Standards Division of the Department of Trade and Commerce in the "Report of the Standards Division", which covered the fiscal year ending on March 31. Since 1957 the report has been for the calendar year. A table showing electric meter registrations by province and company was first compiled for the 1958 report.

Due to its doubtful accuracy and limited use, regional reporting of electric meter registrations by incorporated municipalities was discontinued in 1968. Also, in order to conform more closely with the respondents records the domestic, commercial and power meter breakdown was replaced by tabulation by type of meter e.g. watthour, repayment, etc.

The number of meters reported in service by companies engaged in the sale of electricity in Canada rose to 6,899,279 at December 31, 1969 from 6,718,933 one year earlier, an increase of 180,346 or 2.7 p.c. Single phase and polyphase watthour meters numbered 6,382,844 and 173,939 respectively. There was a total of 342,208 other A.C. meters in service at the end of the year of which 239,887 were single phase and 102,321

## COMPTEURS ÉLECTRIQUES ET COMPTEURS DE GAZ ENREGISTRÉS

1969

Tout au long de la présente brochure, on entend désigner par "compteurs électriques enregistrés" et par "compteurs de gaz enregistrés" respectivement le nombre de compteurs en service tel qu'il a été déclaré par les sociétés dont l'activité consiste à vendre de l'énergie électrique ou du gaz, dans les demandes de certificat d'enregistrement. Tous les ans, le 31 mars au plus tard, chaque société doit obtenir de la Division des normes du Ministère de la consommation et des corporations un certificat d'enregistrement pour tous les compteurs en service à la fin de l'année précédente.

Pour fins d'inspection, d'après la "Loi sur l'inspection de l'électricité" et la "Loi sur l'inspection du gaz", les provinces ont été divisées en district. Quant aux compteurs rapportés dans les tableaux 3, 5, 8 et 10 de cette publication, ils ont été groupés par district d'inspection. Des informations au sujet de l'étendue géographique de chaque district d'inspection, peuvent être obtenues de la Division des normes, au Ministère de la consommation et des corporations.

Avant 1956, la publication du rapport concernant les compteurs électriques et de gaz était confiée à la Division des normes du Ministère du commerce, dont le bulletin "Report of the Standards Division" portait sur l'année financière se terminant le 31 mars. Depuis 1957, ce bulletin porte sur l'année civile. C'est à l'occasion du bulletin de 1958 que l'on a établi le premier tableau indiquant les compteurs électriques enregistrés par province et par société.

Du fait que la statistique régionale des compteurs électriques par municipalité régulièrement constituée offrait peu de chances d'être exacte et ne servait qu'à des fins limitées, on en a cessé la publication en 1968. En outre, et afin de se rapprocher davantage des renseignements disponibles dans les sociétés soumises à déclaration, on a abandonné le classement des compteurs suivant l'usage domestique, commercial et industriel pour le remplacer par un classement par type de compteurs, par exemple, wattheuremètres, compteurs à prépaiement, etc.

Le nombre des compteurs que les sociétés qui vendent de l'électricité au Canada ont déclaré être en service au 31 décembre 1969 s'est accru et atteint 6,899,279 unités, contre 6,718,933 unités à la même époque l'année précédente, ce qui représente une augmentation de 180,346 unités ou 2.7 p. 100. Les wattheuremètres en monophasé et en polyphasé totalisent respectivement 6,382,844 et 173,939 unités. Au total, il y avait 342,208 compteurs de courant alternatif d'autres types en

were polyphase. Other types of meters in service included 119 prepayment A.C. meters and 169 D.C. meters. All A.C. meters were of the 60 hertz variety with the exception of 25 hertz meters in Ontario and Quebec and 50 hertz meters in Newfoundland numbering 145 and 570 respectively.

A total of 1,902,343 natural, manufactured and other gas meters was reported in service at the end of 1969 an increase of 3.5 p.c. over the 1,838,601 recorded in 1968. At the year end only 10,783 meters remained in manufactured gas service, as compared with 11,188 in 1968 and 610,096 in 1950, the peak year. Meters in natural gas service rose 3.5 p.c. to 1,871,324 from 1,807,353.

service à la fin de l'année, dont 239,887 unités pour courant monophasé, et 102,321 unités pour courant polyphasé. Parmi les autres types de compteurs en service, on trouvait 119 compteurs de courant alternatif à prépaiement et 169 compteurs de courant continu. Tous les compteurs de courant alternatif étaient du type de 60 Hz, sauf pour l'Ontario et le Québec, où l'on comptait 145 compteurs de 25 Hz, et Terre-Neuve, où l'on comptait 570 compteurs de 50 Hz.

Au total, les déclarations portaient sur 1,902,343 compteurs de gaz naturel, gaz de ville et autre en service à la fin de 1969, soit une augmentation de 3.5 p. 100 par rapport au nombre de 1,838,601 déclaré pour 1968. A la fin de l'année, il ne restait que 10,783 compteurs de gaz de ville en service, au lieu de 11,188 en 1968 et 610,096 en 1950, année où ce nombre avait été le plus élevé. Les compteurs de gaz naturel en service ont connu un accroissement de 3.5 p. 100, pour atteindre 1,871,324 unités, contre 1,807,353.

## ELECTRIC AND GAS METER REGISTRATIONS

1970

The terms "Electric Meter Registrations" and "Gas Meter Registrations" are used throughout this report in reference to the number of meters in service as reported by companies engaged in the sale of electricity or gas in applications for certificate of registration. Each company is required to obtain a certificate of registration from the Department of Consumer and Corporate Affairs, Standards Branch, not later than the 31st of March each year, for all meters in service at the end of the previous year.

For the purposes of inspection, under the Electricity Inspection Act and the Gas Inspection Act, the provinces have been divided into districts. Meters reported in Tables 3, 6, 9 and 11 of this publication have been grouped by inspection district. The geographic area covered by each inspection district is available from the Standards Branch of the Department of Consumer and Corporate Affairs.

Prior to 1956 the Electric and Gas Meter Registration report was published by the Standards Division of the Department of Trade and Commerce in the "Report of the Standards Division", which covered the fiscal year ending on March 31. Since 1957 the report has been for the calendar year. A table showing electric meter registrations by province and company was first compiled for the 1958 report.

Due to its doubtful accuracy and limited use, regional reporting of electric meter registrations by incorporated municipalities was discontinued in 1968. Also, in order to conform more closely with the respondents' records the domestic, commercial and power meter breakdown was replaced by a tabulation by type of meter e.g., watthour, prepayment, etc.

In this publication Tables 5-11 inclusive have been redesigned so that tables for gas meters will conform with those for electric meters. The titles of Tables 8 and 9 which in former publications referred to "Manufactured Gas" have been changed to "Gases Other Than Natural Gas and Bottled L.P.G."

The number of meters reported in service by companies engaged in the sale of electricity in Canada rose to 7,033,146 at December 31, 1970, from 6,899,279 the previous year, an increase of 133,867 or 1.9 %. Single phase and polyphase watthour meters numbered 6,504,461 and 194,936 respectively. There was a total of 333,465 other A.C. meters in service at the end of 1970 of which 214,512 were single phase and 118,953 were polyphase. Other types of meters in service included 127 prepayment A.C. meters and 157 D.C. meters. All A.C. meters were of the 60 hertz variety with the exception of the 25 hertz meters reported in Quebec and Ontario numbering 75 and the 50 hertz meters in Newfoundland numbering 559.

A total of 1,953,993 natural, bottled L.P.G. and gases other than natural gas and bottled L.P.G. was reported in service at the end of 1970, an increase of 2.7 % over the 1,902,343 recorded in 1969. At the end of 1970, only 10,543 meters registering gas other than natural gas or bottled L.P.G. remained in service, as compared with 10,783 in 1969 and 610,096 in 1950, the peak year. Natural gas meters in service in 1970 rose 9 % from 1,871,324 to 1,924,745.

## COMpteurs Électriques ET COMpteurs DE GAZ ENREGISTRÉS

1970

Tout au long de la présente brochure, on entend désigner par "compteurs électriques enregistrés" et par "compteurs de gaz enregistrés" respectivement le nombre de compteurs en service tel qu'il a été déclaré par les sociétés dont l'activité consiste à vendre de l'énergie électrique ou du gaz, dans les demandes de certificat d'enregistrement. Tous les ans, le 31 mars ou plus tard, chaque société doit obtenir de la Division des normes du Ministère de la consommation et des corporations un certificat d'enregistrement pour tous les compteurs en service à la fin de l'année précédente.

Pour fins d'inspection, d'après la "Loi sur l'inspection de l'électricité" et la "Loi sur l'inspection du gaz", les provinces ont été divisées en district. Quant aux compteurs rapportés dans les Tableaux 3, 6, 9 et 11 de cette publication, ils ont été groupés par district d'inspection. Des informations au sujet de l'étendue géographique de chaque district d'inspection, peuvent être obtenues de la Division des normes, au Ministère de la consommation et des corporations.

Avant 1956, la publication du rapport concernant les compteurs électriques et de gaz était confiée à la Division des normes du Ministère du commerce, dont le bulletin "Report of the Standards Division" portait sur l'année financière se terminant le 31 mars. Depuis 1957, ce bulletin porte sur l'année civile. C'est à l'occasion du bulletin de 1958 que l'on a établi le premier tableau indiquant les compteurs électriques enregistrés par province et par société.

Du fait que la statistique régionale des compteurs électriques par municipalité régulièrement constituée offrait peu de chances d'être exacte et ne servait qu'à des fins limitées, on en a cessé la publication en 1968. En outre, et afin de se rapprocher davantage des renseignements disponibles dans les sociétés soumises à déclaration, on a abandonné le classement des compteurs suivant l'usage domestique, commercial et industriel pour le remplacer par un classement par type de compteurs, par exemple, wattheuremètres, compteurs à prépaiement, etc.

Dans cette publication aux Tableaux 5-11 inclusivement nous avons dessiné les tableaux pour compteurs de gaz pour qu'ils soient conformes aux tableaux des compteurs électriques. Les titres des Tableaux 8 et 9 lesquels dans les publications précédentes reféraient "Compteurs de gaz de ville enregistrés" nous avons changé à "Compteurs de gaz enregistrés pour les autres gaz que le gaz naturel et G.P.L. en cylindre".

Le nombre des compteurs que les sociétés qui vendent de l'électricité au Canada ont déclaré être en service au 31 décembre 1970 s'est accru et atteint 7,033,146 unités, contre 6,899,279 unités à la même époque l'année précédente, ce qui représente une augmentation de 133,867 unités ou 1.9 %. Les wattheuremètres en monophasé et en polyphasé totalisent respectivement 6,504,461 et 194,936 unités. Au total, il y avait 333,465 compteurs de courant alternatif d'autres types en service à la fin de l'année, dont 214,512 unités pour courant monophasé, et 118,953 unités pour courant polyphasé. Parmi les autres types de compteurs en service, on trouvait 127 compteurs de courant alternatif à prépaiement et 157 compteurs de courant continu. Tous les compteurs de courant alternatif étaient du type de 60 Hz., sauf pour l'Ontario et le Québec, où l'on comptait 75 compteurs de 25 Hz. et Terre-Neuve, où l'on comptait 559 compteurs de 50 Hz.

Au total, les déclarations portaient sur 1,953,993 compteurs de gaz naturel, G.P.L. en cylindre et les autres gaz que le gaz naturel et G.P.L. en cylindre, en service à la fin de 1970, soit une augmentation de 2.7 % par rapport au nombre de 1,902,343 déclaré pour 1969. À la fin de l'année il ne restait que 10,543 compteurs d'autres que le gaz naturel et G.P.L. en cylindre en service, au lieu de 10,783 en 1969 et 610,096 en 1950, année où ce nombre avait été le plus élevé. Les compteurs de gaz naturel en service ont connu un accroissement de 2.9 % pour atteindre 1,924,745 unités contre 1,871,324 en 1969.

TABLE 1. Electric and Gas Meter Registrations for the Years Ended December 31, 1950 to 1970

1971

The terms "Electric Meter Registrations" and "Gas Meter Registrations" are used throughout this report in reference to the number of meters in service as reported by companies engaged in the sale of electricity or gas in applications for certificate of registration. Each company is required to obtain a certificate of registration from the Department of Consumer and Corporate Affairs, Standards Branch, not later than the 31st of March each year, for all meters in service at the end of the previous year.

For the purposes of inspection, under the Electricity Inspection Act and the Gas Inspection Act, the provinces have been divided into districts. Meters reported in Tables 3, 6, 9 and 11 of this publication have been grouped by inspection district. The geographic area covered by each inspection district is available from the Standards Branch of the Department of Consumer and Corporate Affairs.

Prior to 1956 the Electric and Gas Meter Registration report was published by the Standards Division of the Department of Trade and Commerce in the "Report of the Standards Division", which covered the fiscal year ending on March 31. Since 1957 the report has been for the calendar year. A table showing electric meter registrations by province and company was first compiled for the 1958 report.

Due to its doubtful accuracy and limited use, regional reporting of electric meter registrations by incorporated municipalities was discontinued in 1968. Also, in order to conform more closely with the respondents' records the domestic, commercial and power meter breakdown was replaced by a tabulation by type of meter e.g., watt-hour, prepayment, etc.

The number of meters reported in service by companies engaged in the sale of electricity in Canada rose to 7,269,677 at December 31, 1971, from 7,033,146 the previous year, an increase of 236,531 or 3.4 %. Single phase and polyphase watt-hour meters numbered 6,709,434 and 212,431 respectively. There was a total of 347,623 other A.C. meters in service at the end of 1971 of which 230,109 were single phase and 117,514 were polyphase. Other types of meters in service included 76 prepayment A.C. meters and 113 D.C. meters. 1 A.C. meters were of the 60 hertz variety with the exception of the 25 hertz meters reported in Quebec and Ontario numbering 85 and the 50 hertz meters in Newfoundland numbering 579.

A total of 2,012,541 natural, bottled L.P.G. and gases other than natural gas and bottled L.P.G. was reported in service at the end of 1971, an increase of 1 % over the 1,953,993 recorded in 1970.

An exhaustive analysis in 1971 of the reports submitted by those companies responding for bottled L.P.G. meters and meters for gases other than natural gas and bottled L.P.G. has resulted in data which are strictly comparable to those of previous years that: (a) certain meters previously reported as bottled L.P.G. meters have been ascertained to be propane-air meters. (b) the provincial locations of certain bottled L.P.G. meters had previously been determined by the location of the inspection district, rather than by the point of operation. The present publication now reflects the latter.

The combined effect of these two factors can be seen by comparing the relevant tables of this publication with the same tables of the 1970 publication.

1971

Tout au long de la présente brochure, on entend désigner par "compteurs électriques enregistrés" et par "compteurs de gaz enregistrés" respectivement le nombre de compteurs en service tel qu'il a été déclaré par les sociétés dont l'activité consiste à vendre de l'énergie électrique ou du gaz, dans les demandes de certificat d'enregistrement. Tous les ans, le 31 mars au plus tard, chaque société doit obtenir de la Division des normes du Ministère de la consommation et des corporations un certificat d'enregistrement pour tous les compteurs en service à la fin de l'année précédente.

Pour fins d'inspection, d'après la "Loi sur l'inspection de l'électricité" et la "Loi sur l'inspection du gaz", les provinces ont été divisées en district. Quant aux compteurs rapportés dans les Tableaux 3, 6, 9 et 11 de cette publication, ils ont été groupés par district d'inspection. Des informations au sujet de l'étendue géographique de chaque district d'inspection, peuvent être obtenues de la Division des normes, au Ministère de la consommation et des corporations.

Avant 1956, la publication du rapport concernant les compteurs électriques et de gaz était confiée à la Division des normes du Ministère du commerce, dont le bulletin "Report of the Standards Division" portait sur l'année financière se terminant le 31 mars. Depuis 1957, ce bulletin porte sur l'année civile. C'est à l'occasion du bulletin de 1958 que l'on a établi le premier tableau indiquant les compteurs électriques enregistrés par province et par société.

Du fait que la statistique régionale des compteurs électriques par municipalité régulièrement constituée offrait peu de chances d'être exacte et ne servait qu'à des fins limitées, on en a cessé la publication en 1968. En outre, et afin de se rapprocher davantage des renseignements disponibles dans les sociétés soumises à déclaration, on a abandonné le classement des compteurs suivant l'usage domestique, commercial et industriel pour le remplacer par un classement par type de compteurs, par exemple, wattheuremètres, compteurs à prépaiement, etc.

Le nombre des compteurs que les sociétés qui vendent de l'électricité au Canada ont déclaré être en service au 31 décembre 1971 s'est accru et atteint 7,269,677 unités, contre 7,033,146 unités à la même époque l'année précédente, ce qui représente une augmentation de 236,531 unités ou 3.4 %. Les wattheuremètres en monophasé et en polyphasé totalisent respectivement 6,709,434 et 212,431 unités. Au total, il y avait 347,623 compteurs de courant alternatif d'autres types en service à la fin de l'année, dont 230,109 unités pour courant monophasé, et 117,514 unités pour courant polyphasé. Parmi les autres types de compteurs en service, on trouvait 76 compteurs de courant alternatif à prépaiement et 113 compteurs de courant continu. Tous les compteurs de courant alternatif étaient du type de 60 Hz., sauf pour l'Ontario et le Québec, où l'on comptait 85 compteurs de 25 Hz. et Terre-Neuve, où l'on comptait 579 compteurs de 50 Hz.

Au total, les déclarations portaient sur 2,012,541 compteurs de gaz naturel, G.P.L. en cylindre et les autres gaz que le gaz naturel et G.P.L. en cylindre, en service à la fin de 1971, soit une augmentation de 3.0 % par rapport au nombre de 1,953,993 déclaré en 1970.

Une analyse exhaustive en 1971 des rapports soumis par les sociétés qui ont déclaré des compteurs G.P.L. en cylindre ou des compteurs pour les autres gaz que le gaz naturel et G.P.L. en cylindre a résulté en un regroupement de données qui ne se compare pas strictement aux tableaux des années précédentes. La décomposition des compteurs par genre de combustible et la distribution de compteurs par province furent touchées par ce regroupement. En premier lieu, certains compteurs dont le type a été déterminé comme étant air propane en 1971 étaient auparavant classés parmi les compteurs G.P.L. en cylindre. En deuxième, la distribution provinciale des compteurs G.P.L. en cylindre était antérieurement déterminée d'après la province d'enregistrement même si les compteurs étaient en service dans une autre province. À partir de 1971, toutes les données par province reflètent les compteurs en service dans chaque province.

L'effet global de ces changements peut être observé en comparant les tableaux pertinents de 1971 à ceux de 1970.

TABLE 1. Electric and Gas Meter Registrations for the Years Ended December 31, 1951 to 1971

## ELECTRIC AND GAS METER REGISTRATIONS

1972

The terms "Electric Meter Registrations" and "Gas Meter Registrations" are used throughout this report in reference to the number of meters in service as reported by companies engaged in the sale of electricity or gas in applications for certificate of registration. Each company is required to obtain a certificate of registration from the Department of Consumer and Corporate Affairs, Standards Branch, not later than the 31st of March each year, for all meters in service at the end of the previous year.

For the purposes of inspection, under the Electricity Inspection Act and the Gas Inspection Act, the provinces have been divided into districts. Meters reported in Tables 3, 6, 9 and 11 of this publication have been grouped by inspection district. The geographic area covered by each inspection district is available from the Standards Branch of the Department of Consumer and Corporate Affairs.

Prior to 1956 the Electric and Gas Meter Registration report was published by the Standards Division of the Department of Trade and Commerce in the "Report of the Standards Division", which covered the fiscal year ending on March 31. Since 1957 the report has been for the calendar year. A table showing electric meter registrations by province and company was first compiled for the 1958 report.

Due to its doubtful accuracy and limited use, regional reporting of electric meter registrations by incorporated municipalities was discontinued in 1968. Also, in order to conform more closely with the respondents' records the domestic, commercial and power meter breakdown was replaced by a tabulation by type of meter e.g., watthour, prepayment, etc.

The number of meters reported in service by companies engaged in the sale of electricity in Canada rose to 7,430,298 at December 31, 1972, from 7,269,677 the previous year, an increase of 160,621 or 2.2 %. Single phase and polyphase watthour meters numbered 6,847,707 and 229,829 respectively. There was a total of 352,417 other A.C. meters in service at the end of 1972 of which 225,531 were single phase and 126,886 were polyphase. Other types of meters in service included 79 prepayment A.C. meters and 266 D.C. meters. 11 A.C. meters were of the 60 hertz variety with the exception of the 25 hertz meters reported in Quebec and Ontario numbering 92 and the 50 hertz meters in Newfoundland numbering 599.

A total of 2,099,074 natural gas, bottled L.P.G. and gases other than natural gas and bottled L.P.G. meters was reported in service at the end of 1972, an increase of 4.3 % over the 2,012,541 recorded in 1971. The 1972 total is comprised of 2,071,710 natural gas meters; 18,684 meters for gases other than natural gas and bottled L.P.G. and 8,680 bottled L.P.G. meters.

## COMPTEURS ÉLECTRIQUES ET COMPTEURS DE GAZ ENREGISTRÉS

1972

Tout au long de la présente brochure, on entend désigner par "compteurs électriques enregistrés" et par "compteurs de gaz enregistrés" respectivement le nombre de compteurs en service tel qu'il a été déclaré par les sociétés dont l'activité consiste à vendre de l'énergie électrique ou du gaz, dans les demandes de certificat d'enregistrement. Tous les ans, le 31 mars au plus tard, chaque société doit obtenir de la Division des normes du Ministère de la consommation et des corporations un certificat d'enregistrement pour tous les compteurs en service à la fin de l'année précédente.

Pour fins d'inspection, d'après la "Loi sur l'inspection de l'électricité" et la "Loi sur l'inspection du gaz", les provinces ont été divisées en district. Quant aux compteurs rapportés dans les Tableaux 3, 6, 9 et 11 de cette publication, ils ont été groupés par district d'inspection. Des informations au sujet de l'étendue géographique de chaque district d'inspection, peuvent être obtenues de la Division des normes, au Ministère de la consommation et des corporations.

Avant 1956, la publication du rapport concernant les compteurs électriques et de gaz était confiée à la Division des normes du Ministère du commerce, dont le bulletin "Report of the Standards Division" portait sur l'année financière se terminant le 31 mars. Depuis 1957, ce bulletin porte sur l'année civile. C'est à l'occasion du bulletin de 1958 que l'on a établi le premier tableau indiquant les compteurs électriques enregistrés par province et par société.

Du fait que la statistique régionale des compteurs électriques par municipalité régulièrement constituée offrait peu de chances d'être exacte et ne servait qu'à des fins limitées, on en a cessé la publication en 1968. En outre, et afin de se rapprocher davantage des renseignements disponibles dans les sociétés soumises à déclaration, on a abandonné le classement des compteurs suivant l'usage domestique, commercial et industriel pour le remplacer par un classement par type de compteurs, par exemple, wattheuremètres, compteurs à prépaiement, etc.

Le nombre des compteurs que les sociétés qui vendent de l'électricité au Canada ont déclaré être en service au 31 décembre 1972 s'est accru et atteint 7,430,298 unités, contre 7,269,677 unités à la même époque l'année précédente, ce qui représente une augmentation de 160,621 unités ou 2.2 %. Les wattheuremètres en monophasé et en polyphasé totalisent respectivement 6,847,707 et 229,829 unités. Au total, il y avait 352,417 compteurs de courant alternatif d'autres types en service à la fin de l'année, dont 225,531 unités pour courant monophasé, et 126,886 unités pour courant polyphasé. Parmi les autres types de compteurs en service, on trouvait 79 compteurs de courant alternatif à prépaiement et 266 compteurs de courant continu. Tous les compteurs de courant alternatif étaient du type de 60 Hz., sauf pour l'Ontario et le Québec, où l'on comptait 92 compteurs de 25 Hz. et Terre-Neuve, où l'on comptait 599 compteurs de 50 Hz.

Au total, les déclarations portaient sur 2,099,074 compteurs de gaz naturel, G.P.L. en cylindre et les autres gaz que le gaz naturel et G.P.L. en cylindre, en service à la fin de 1972, soit une augmentation de 4.3 % par rapport au nombre de 2,012,541 déclaré en 1971. Le total de 1972 comprend 2,071,710 compteurs de gaz naturel, 18,684 compteurs pour les autres gaz que le gaz naturel et G.P.L. en cylindre et 8,680 compteurs de G.P.L. en cylindre.

TABLE 1. Electric and Gas Meter Registrations for the Years Ended December 31, 1952 to 1972

TABLEAU 1. Compteurs électriques et compteurs de gaz enregistrés pour les années se terminant le 31 décembre, de 1952 à 1972

Year — Année	Electricity meters — Compteurs électriques	Gas meters — Compteurs de gaz				Meters — Nombre total de compteurs
